U. S. Government Recognizes Anarchy
Nova Scotia Companies in Default.
Buller's Conduct to be Investigated.
Fatal Accident on Quebec Central.
The Cobra Was Too Lightly Built.
Liberals Sweep Nova Scotia.
A Coal Mine Horror.
Within Murder Trial—Jury Disagrees.
Winner of Ten Thousand Guineas.

Winnipeg, Oct. 4, '01.

The anarchist paper Free Society, of Winnipeg, has been barred from the United States mails.

Several Nova Scotia companies are unable to pay dividends on their bonds and are in default.

An accident on the Quebec Central killed three men and injured several others. The victims of the Cobra disaster were the first to be killed by the cobra.

The liberals of Nova Scotia won the greatest victory in the history of Canadian politics to-day when they swept the whole province and elected to the legislature a majority of thirty-eight representatives in the house thirty-six in the senate.

The liberals of Nova Scotia won the greatest victory in the history of Canadian politics to-day when they swept the whole province and elected to the legislature a majority of thirty-eight representatives in the house thirty-six in the senate.

Columbia Wins.

Three Straight Heats.

ALL WERE NECK AND NECK.

New York, Oct. 2.—In a glorious whistling breeze, which heated the big cup contestants till the ice rails were awash in foaming seas, Hereschof's white wonder, the Columbia, yesterday beat Watson's British creation over a triangular course of thirty miles by two minutes and 52 seconds actual time. With the 43 seconds which the Shamrock must allow, the American boat on account of her larger sail, plan, the Columbia won the second race of the series by three minutes and thirty-five seconds. It was the fastest race ever sailed in a cup contest. It was not only a royal struggle from a spectacular point of view but it was absolutely decisive as to the merits of the two racing machines. There was not a yachting sharp who witnessed the race to-day who is not convinced that the defender is the abler boat. Blow high or low, beating, reaching or running Sir Thomas and his merry British tars are doomed to return home empty handed. Sir Thomas has been waiting for a breeze that would bury the Shamrock's lee rail and had it yesterday. The yachts race again to-day. Strong wind is blowing and race has started.

In to-day's race the Columbia led for the first two miles. Then the Shamrock took the lead and crossed the line first. But after deducting the time allowance of 43 seconds (on account of the Shamrock's larger sails) the Columbia wins.

The Columbia has thus won three straight heats and the race.

The Royal Tour.

Lord Minto will join the Duke of York's shooting party at Poplar Point. The royal train will reach Banff this afternoon en route east. The Duchess will remain there for a day or two.

The War.

COL. KEKEWICH WOUNDED.

The latest South African casualty list shows that fighting in the attack on Col. Kekewich's camp at Madsdell, Sept. 29th, put twenty-six British officers and men out of action. Four were killed outright, or died of wounds and twenty-two were wounded. Col. Kekewich was wounded severely, but he is doing well.

LOCAL.

—W. Carruthers left for the east Tuesday morning.

—Dr. Acres, V. S., returned from Calgary Tuesday.

—J. S. Johnston, of the Gallagher-Hull Co., Westsaskia, is in town.

—J. W. Shera, M. L. A., returned from the east Tuesday night.

—Dr. McInnis and Capt. Brown are on a two weeks shooting trip to Beaver lake.

—Mr. and Mrs. L. G. Picard, left for Saddle Lake yesterday, going down the river by boat.

—Mrs. H. E. Daniel and son left yesterday for Fort Saskatchewan, to join Mr. Daniel.

—Dr. Beatty, of Keewatin, is visiting Edmonton in the interests of the Appleton Publishing Co.

—Battledore Herald, Sept. 25th: The senior commissioners left Prince Albert for Duck Lake yesterday.

—Seven births, five deaths and two marriages were recorded by the registrar here for the month of September.

—Thos. McMillan returned to his home in Butte, Mont., Wednesday, after a visit to relatives in the Glenary settlement.

—Insp. Crosthwaite, who went south with the escort for the royal party, continued to the coast with the mounted police guard of honor, sixty four men.

—E. Looby, Geo. P. Sanderson and Thos. Pavel left for Onion lake yesterday on a shooting trip. Mr. Pavel takes his children down to the school there.

—Robert Vadar, who purchased Carey & Noyes' threshing last fall has added a Jones wind stacker for this season's work. He began work on Tuesday at E. Carey's place, St. Albert road.

—Among the passengers returning from Calgary Monday, where they had gone to be present at the reception to the royal party, were: Mrs. Taylor, Mrs. Eleanor Taylor, Mrs. Geo. Ray, Mr. and Mrs. Boudreau, W. S. Robertson, W. Wilkie, H. G. Acres, V. C. Jamieson, A. Prince, J. H. Picard, and J. McDougall.

Woodmen's concert and ball to-night.

—Mrs. Jellett will serve tea at the golf grounds to-morrow.

—Lennie Goodridge returned last night from a shooting trip to Beaver lake.

—Frank Broseau, of St. Albert, has been visiting from a visit to St. Paul, Minn.

—No service in the Baptist church on Sunday next, Oct. 6th, owing to the absence of the pastor.

—Shedden & Campbell have sold out their real estate and general agency business to Butchart & Leonard.

—The Fort Saskatchewan fair has been postponed indefinitely, owing to the condition of the country roads.

—Eleven train dogs are at the barracks here to be shipped in the morning to the Yukon for the N. W. M. P.

—Mrs. and Miss Belcher returned from Calgary Monday. They were among those who had the honor of being presented to the Duke and Duchess at Calgary.

—Harry Garbett came in Monday from the foothills of the Rockies, west of Lesser Slave lake, where he has been hunting and trapping for the past two years in company with W. P. Taylor.

The walls of the Presbyterian church are now over half way and Mr. McLeod, under whose superintendence the work is being done, is confident of having the structure completed this fall.

—The organization of the Clover Bar rifle association has been completed. Capt. Thos. Duly, 1st lieutenant, W. Carasadden; 2nd lieutenant, J. Miller. The range will be on the Clover Bar flats.

—High winds at Battledore. The Herald of Sept. 25th, says: High winds, low water and a wind storm kept the ferry four days from crossing, much to the discomfort of visitors from the north side.

—W. Cayley, Hamilton, K. C., president of the Territorial Institute, society, died at Regina Wednesday. Mr. Hamilton was one of the earliest admitted barristers in the Territories, ranking with D. L. now Mr. Justice Scott, and N. P. Davin.

—W. T. B. Hewitt and G. J. Brindley, from South Africa, arrived Tuesday on a visit to relatives in the district. Messrs. Hewitt and Brindley resided in South Africa during the war broke out and passed through some very exciting incidents when hostilities were declared. They left Tuesday morning for New Lunnah where they will visit Mr. and Mrs. Hewitt, and may possibly take up land.

—Thos. Kerr of the H. B. Co. service, Peace river returned on Tuesday's train from Scotland accompanied by his bride. Mr. Kerr was visiting his former home in Edinburgh, and friends in other parts of Scotland, after an absence of thirteen years. Mr. and Mrs. Kerr left for the Landing this morning to meet the H. B. Co. boats from Lesser Slave lake. They will get by way of Lesser Slave lake to Peace River Crossing and thence down the Peace to the post of which Mr. Kerr has charge at Little Red river, near the channel of the Peace, 90 miles below Vermilion.

EDMONTON BULLETIN, OCT. 4th, 1901.

ALBERTA'S COAL

Fernie coal from Blairmore has regulated Fernie coal in the blacksmith shops in town. It is quite equal to Fernie coal for all purposes, its only disadvantage being that it gives off more smoke. It came into use here, not because it was better than the Fernie coal, but because the Fernie people thought they had a monopoly of that kind of coal. The opening of mines of coking and blacksmith coal at Blairmore on the east side of the summit of the Rockies means a great deal to the mining regions of British Columbia and through them to the Territories and all Canada. Not only is the quantity of that quality of coal shown to be illimitable, but the fact that the Blairmore mines are under other management than those of Fernie relieves the danger of monopoly, which was feared so greatly at one time. Opposition in the coal trade will relieve the mining industry of British Columbia from any possible danger of a squeeze by the coal barons, and it will therefore be on that much sounder foundation. The Fernie coal fields were boomed so persistently and scientifically that most people in Canada and the States believe that those fields contain all the coal in the Canadian West. As a matter of fact the Fernie fields are only a patch to the coal fields of Alberta. But it was taken for granted even in Alberta that there was no profitable coking coal outside the Fernie fields. This would give those fields a monopoly of the supply of the smelting industry, but not of the general fuel supply. With the fact once established that coking coal exists east of the summit of the Rockies there is no saying to what extent the vast coal masses of Alberta in the foot hills and mountains may turn out to be of coking quality. A scan of coking coal has been worked for a number of years for blacksmith purposes on the upper waters of Sheep Creek, south of Calgary and west of Okotoks, only nearly 100 miles north of Blairmore. As yet the deposits known to exist all along the eastern slopes of the mountains for 500 miles from the Crow's Nest Pass to the Peace river, have not been prospected for quality. But if those at Blairmore and Sheep Creek are of coking quality it is more than likely that a like quality may be found at other points. Alberta's coal fields include all qualities from coking to anthracite. They are the most extensive coal fields in the known world and directly and indirectly they represent incalculable wealth.

REGRETS

The Winnipeg Telegram, organ of the Roblin government, regrets to announce that the reduction of two cents per hundred on grain to Port Arthur over the Canadian Northern lines did not go into effect on October 1st as promised in July last, for the very good reason that the line is not completed. The reasons given for non-completion of the line are: Lateness of the ratification of the agreement by parliament, bad weather, and scarcity of labor. It is still expected that the line will be completed by November, but that will be too late for the crop of the present season, to get the benefit of the expected two cent reduction in rate. In an interview with the Telegram Premier Roblin says there are no reasons why the promised reduction in rates has not been made. One is that the line is not completed. The other is he is not in a position to disclose at present. The premier would have done well to have been content with stating the one reason, without hinting at another. If the line is not completed it is a clear case that grain cannot be carried over it at a reduced or any other rate. Until the line is completed no other reason can be effective. The premier's remark indicates that there are forces at work to prevent the completion of the agreement between the Canadian Northern and the province of Manitoba, outside of natural or physical causes. The public are interested in knowing what these forces are. They may be of various kinds, such as a desire on the part of the province or of the railway company to go back on their bargain; or the securing of control of the company's source of funds by opposing interests. Whatever the cause Premier Roblin should either have said less or have said more. Either he should not have indicated that there was anything wrong, or he should have said just what was wrong.

In addition to the announcement that the line to Port Arthur was not completed in time to haul out any part of this season's crop before the close of navigation it is also mentioned that work on the extension from the Dauphin region to

wards Prince Albert has closed for the season. The tendency of these announcements was necessarily to shake public confidence in the willingness or ability of the company to carry out their announced arrangements; without the dark hint of premier Roblin as to some influence of which he could not speak. It is to be fervently hoped that the Canadian Northern is not going to the bone yard, like so many previous schemes for railway competition in the Northwest.

TOWN COUNCIL

The council met Wednesday, all members being present. Jas. McDonald, building and fire inspector, asked for a week's leave of absence to date from Monday next. His request was granted.

Fire insurance premium on hall was renewed.

With reference to the supply of water from the present tank, the following letter, signed by Messrs. Hillman, Jones and Acton, three of the watermen, was read, and filed:

"We, the undersigned watermen, beg to say that we thoroughly understand the difficulties which the water company have had to deal with and are of the opinion that everything they could do was done. The statement as to the quantity of the water made by Mr. Brunton is not correct—it has been perfectly satisfactory of late. We are also satisfied that the present company are intending putting the pump house, &c., in shape for the winter and under the circumstances are not in sympathy with Mr. Brunton's scheme."

Willis Chipman enclosed copy of the South Star's by-law, re waterworks and sewerage. This communication, together with one from Wagoner's Glee, was filed.

A petition signed by 22 of the residents and property holders residing on Jasper avenue west of McDougall street, was read, asking that the fire by-law, which prevents the erection of buildings unless built of brick or stone, be amended for two years as to that locality. An animated debate ensued. The prayer of the petition was supported by Councillors Henry and Lee, who thought the by-law was not in the best interests of the town, while the negative was championed by the mayor and Councillors Blowsy and Morris. Councillors Brown and Goodridge were non-committal, but both agreed that if it was suspended in one part of the town it would have to be taken off all. It was claimed by the supporters of the petition that the part of town affected was as yet west of the business centre and the amount of business to be done there would not justify the erection of large and expensive brick buildings. Those who would put up frame buildings until development of business required better and larger premises were prevented from doing so by the fire by-law and the development of the town was thereby delayed. Councillor Lee contended that "Every wooden building serves its purpose until better ones are needed." Councillor Morris contended that every town in the Territories, even smaller ones than Edmonton, had a fire by-law and if it is good for them it is good for us." He also thought that if such a by-law was of any use in Edmonton it was of use in the locality from which it was asked to be removed. That part of town was on our main street it was just being built up and "we don't want it shackled."

On motions of Councillors Morris and Henry the petition was laid on the table. The health and relief committee reported that "We find the medical health officer has neglected to properly quarantine the measles the health officer by Dr. Wilson's letter and suggest that he be notified by the secretary-treasurer that future cases must do so. The report was adopted. Councillor Morris, chairman of the board of works, reported that he had ordered the work of repairing the Cliff grade to be suspended, as in the case of the continual slide it was impossible to complete the work. Also that he had given instructions to have cattle pound fenced off in part of the market site. And re J. C. P. Bowyer's letter re drainage on his land, that the land was lower than the ditch and the flooding was due to the natural lay of the land. These three reports were adopted.

From the fire, water and light committee the following report was read: Re Brunton's letter and waterworks grievance. We arranged a meeting between Thos. Lines, Esq., the present owner of the system, the watermen and ourselves at which the whole question was discussed in detail. Mr. Lines, while admitting the irregularities and inconveniences which have heretofore existed, promised to have the system reorganized and put in thorough working shape, so that in the future there will be no difficulty in getting a sufficient supply of filtered water for domestic use and an ample supply for fire purposes, according to the terms of agreement between the town and Councillor Lines. In view of this it was deemed expedient to forego any action at the present time. This arrangement being satisfactory to Mr. Brunton and the other watermen present, it was adopted by the committee.

Re petition of H. Sigler and others for electric light to be placed at the corner of Howard and May streets, it was moved by Mr. Lee and seconded by J. T. Blowsy, that the request be granted.

Re fire tank. Tenders were received from Wills & Dey for \$385, and being the lowest tender it was accepted. W. T. Henry, chairman.

Council Lee reported that an agreement in the erection of a wooden mill had been arrived at with Mr. W. J. Storer. By-law 216, ratifying the agreement, was then finally passed.

Applications for the position of town constable were read. There were 16 applicants, their names being: John McKinlay, Jas. McKay, Wm. L. Roberts, J. L. Powell, E. T. Patrick, Geo. Noyes, Jos. Grimsenwaite, Jos. Crunella, Alex. Davidson, A. Cheesborough, J. Bugan, Ross Hare, Geo. Woolley, J. R. Umbach, John McManis, T. M. McCallum, J. C. Griffith and H. E. Reed.

Coun. Goodridge moved the acceptance of E. T. Patrick's application. The motion was not seconded and after debate it was decided to ballot, each councillor to choose six candidates, whose names he would write on his ballot paper. This was done and resulted in Budd, McCallum, McManis,

Patrick and McKinlay being the choice of the first ballot. Voting took place then on any three names out of the five, and left McManis, McCallum and Budd as the favorites. Another ballot was held on two names and resulted in McManis and Budd at the head. McCallum dropping out. The other and final ballot was held on the two remaining and the count showed: Budd, 5; McManis, 2. H. E. Budd was, therefore, declared elected and his application accepted, duties to commence at once.

John Henry brought up the matter of the railway connection. The work was not going on as fast as it might and he advised that Mr. Moore be notified.

Coun. Goodridge said that Mr. Armstrong had told him they did not expect to get the work finished this fall. It was ascertained that the agreement with Mackenzie & Mann, had never been returned to the town. The secretary was instructed to wire at once asking for the return of the executed agreement.

The accounts passed were:

NORTHWEST EXHIBIT

Regina West; G. H. V. Buley, commissioner of agriculture, returned last Thursday evening from Winnipeg, where he had been superintending the shipping of the Northwest cattle exhibit for the Pan-American exhibition. The exhibit consisted of 30 range steers, the pick of Gordon, Ironside & Farves' purchases. These cattle will be received in Buffalo by C. W. Peterson, the deputy commissioner, who will see that they are placed in a corral one hundred feet in diameter, constructed specially for them. After being exhibited the cattle will be sold, either in Buffalo or Montreal, the place of sale depending upon the price offered in Buffalo. If sold in Buffalo, of course the duty will have to be paid. The government has made arrangements with the C. P. R. for taking these cattle to Montreal from Buffalo, providing they are not sold at the latter place.

HARVEST HANDS STILL WANTED.
Free Press: Requests for about 270 harvest and threshing hands have so far been received at the department of agriculture from individuals and the railways. The department was unable to supply the men owing to the scarcity of labor. In addition to the above number the department was also needed some time ago that 228 men were wanted between Winnipeg and Brandon. It is reported that the excursionists from the east are already beginning to turn so there is a prospect that labor will again be at a premium before the snow flies.

Fall Overcoats.

Coats that Fit.
Coats that Wear.
Coats that make a Man look like a Gentleman.
Coats that Cost Half what Tailors charge for a similar garment.

Fall Suits For Men.

In all classes of cloth at all prices, from \$5.00 to \$17.50. These suits are all of honest cloth. They are stylish and beautifully made. In ordering these Suits from the manufacturers "How Good" and not "How Cheap" is the governing consideration. Yet our prices are fully as low as in the stores where "How Cheap" is the only consideration.

Our Serge Suits, at \$10 and \$16, are the best value in Canada.

Our Boy's Suits

Have the same stylish appearance and the same wearing qualities that are characteristic of our Men's Clothing. And as in Men's goods our prices will be found to be as low as the very lowest.

Boy's Overcoats and Reefers.

Some splendid Coats in stout, heavy All-Wool Cloths; handsome appearance; no end of wear, at surprisingly low prices. All sizes of Coats for Boys of all ages.

We are in the Clothing Business to stay.

If we sell a Suit we expect to sell an Overcoat to the same customer, and a Suit for one of his Boys, and a Reefer for the other; and another Suit for himself next summer, after which we expect to see the first boy back for an Overcoat.

EDMONTON BULLETIN, OCT. 4, 1921.

THE PUBLIC SERVICE

The Winnipeg papers are having a
good deal of fun with each other over
the question of dismissals of officials
by the provincial and federal govern-
ments respectively. The Robin govern-
ment of the provinces which came to
power last fall has been very
powerful in displacing from office
ever since in displacing from office
the appointees of its predecessors
and opponents and replacing them by
its own friends. The Free Press which
opposes Robin cries out against the
dismissal of these officials. The
Inquirer which supports Robin, at-
tempts to justify them by calling at-
tention to the number of Dominion
officials dismissed by the Laurier govern-
ment, since it attained power. It
must be said that the Laurier govern-
ment was not so fortunate in its compar-
isons with the action of the Telegram
than in its attempt to justify the
dismissals of its officials. The Laurier govern-
ment has been in power over five years. It
necessarily has many more officials in
its service in the whole of the west
than the government of a province
occupying only a small part of the
continent. And yet it would appear from
the Telegram's own count that the
Robin government has made nearly
as many dismissals in one year as the
Laurier government has in five. More
than that the greater part of the dis-
missals by the Laurier government
have been for departmental rather
than political reasons. While no pre-
ference is made by the Manitoba
government of any reason except that
the office is wanted for a friend. If
there is any doubt about the prin-
ciple governing the dismissals made
by the Manitoba government the pub-
lic utterances of the conservative
association of Winnipeg some months
ago removed it. Their position was
that of a friend wanting an
office was a sufficient reason for re-
moving an opponent from it.

On the general question of dismis-
sals from government employment it
will appear from the tone of the
discussion on both sides, that public of-
fice is looked upon as a private snap.
That the official owns the office, in-
stead of the government owning the
office. This is a mistake both from
the standpoint of the government and
of the official. In the first place
government employment is anything
but a snap if the employee is
capable, reliable and up to date. That
is to say any one who is employed
for better pay and better position
ability, and energy than does the gov-
ernment service. The only condition
under which government employment
is a snap is when the official is not
equal to the office. In that case the
gain of the official is the loss of the
public. That is a condition which
should be a greater or less
degree, but should not prevail and con-
dition should not be a proper condi-
tion. No doubt men struggle for and
succeed in securing government em-
ployment, but usually under a mis-
apprehension as to its advantages. Un-
less in exceptional cases, such men are
making the mistake of their lives.
The very reason why government em-
ployment is sought is the reason of its
disadvantage. It is a sure thing. A
man is sure of the position he gets;
and he is just as sure not to get a
better one. There is no scope for
achievement in a government position.
It is a mere matter of holding on,
and therefore does not afford a
field for the exceptional exercise of
ability and energy such as is afforded
by other lines of life.

Looking at the question from its
other side—that of the government—it
cannot be admitted—as appears to
be claimed—that the right of the of-
ficial to his position is as great as the
right of the government to control the
position. The government are the
trustees of the public. The official is
the employee of the public. The pub-
lic look to the government, acting as
trustees, to see that the public service
is efficiently performed. A govern-
ment can only provide efficient ser-
vice if it has full control of the ap-
pointment and dismissal of officials.
To argue that the conduct of an of-
ficial must be made the subject of a
public enquiry before his services can
be dispensed with is to argue for bu-
rocratic government; which in all
countries stands for tyranny and in-
competence combined. The Northwest
suffered from this form of government
under the conservatives. The hap-
piest change that was made on the
accession of the present government
to power was the doing away with that
bureaucratic system, in western af-
fairs.

The government are responsible to
the whole people for the transaction
of public business. The question prop-
erly at issue is not; Who holds the
position? but, Is the work well done?

It is the right, as it is the duty,
of the government to displace one of
official and replace him by another if
they believe that thereby the public
will be better served.

Of course it has to be taken into
consideration that the prospect of
permanence in a position is practi-
cally the only inducement the govern-
ment has to offer for faithful and
efficient service. That if that induc-
ement is taken away by the prospect
of dismissal without cause, the effi-
ciency of the service will naturally de-
teriorate. In such a case the of-
ficial will either do as little in the office,
or make as much out of it, as he can
while he holds it. On the one hand it
should be recognized that the govern-
ment has the right to dismiss as a
matter of their own judgment; and on
the other hand the right should only
be exercised when the public interest
will thereby be served.

KITCHENER VS. BRODERICK

There is nothing strange or un-
likely in the report that differences
exist between the head of the British
war department and Lord Kitchener.
It would be strange if differences did
not exist. Lord Kitchener has been
long enough and actively enough in
the service of the empire that his
habit of mind is well known. He is
business from the word go, and not-
with his constant effort has been to
get capable men into responsible posi-
tions in the army in Africa, and there
is no doubt that the war office which
has been under his hand has been
in the service of the empire that of
other incompetents to lead British sol-
diers to wounds and death, and still
worse to defeat, being the same ad-
ministration, still has the same ten-
dency to exalt or at least protect in-
competence when backed by social in-
fluence at the expense of mere mili-
tary ability. The promotion of Lord
Methuen in the field is a glaring
case of the protection of incompeten-
cy, and what is worse shows that
traditional British fair play has no
place in the war office calculations.
Methuen was one of three men en-
trusted with separate commands in
South Africa. The two failed gloriously
and absolutely, not to say disgrace-
fully. The reports of Lord Roberts
criticizing the operations of the other
two were published to the world,
and they were retired from command.
The report of Lord Roberts on Lord
Methuen's operations was never pub-
lished, although his failure was utter
and absolute and without excuse. And
what is worse he is still retained as a
commander in active service in South
Africa. Other officers of lower posi-
tion have been dealt with severely,
(although not perhaps as severely as
they deserved,) as was necessary if
efficiency was to be secured. But
there is reason to believe that the
favor shown Lord Methuen is only a
sample of the action of the war de-
partment in shielding incompetents of
lesser degree. Lord Kitchener was
successful in Egypt because the ser-
vice was not popular and he was
therefore able to choose for officers
men who were depending on merit for
promotion. Had he been able to do so
in South Africa there is no doubt
he would have achieved similar suc-
cess. That he has not been allowed to
do so is a standing disgrace to the
British war department, and a standing
menace to the safety—to say nothing
of the dignity—of the empire.

The detailed account of Saturday's
heat in the great yacht race indi-
cates that Shamrock II, is more nearly
a match for the American yacht
than any of the previous challengers.
She was ahead to the turn but fell be-
hind on the home run. She was gain-
ing again at the finish. She seemed
to do best when the breeze was
strongest, falling behind as it slack-
ened. The Columbia crowded the line
one minute and twenty seconds ahead
of the Shamrock. This included her
time allowance of some 40 seconds.

BLACK LEG

Winnipeg Telegram: This disease, as
described to a Telegram reporter by
Mr. O'Malley, of the department of
agriculture, is evidently a blood dis-
ease. It usually appears among
animals which have been over feed-
ing, or feeding very heavily, the feed-
ing their blood very thick, and too
rich. The first intimation that the
animal has the disease is a swelling ap-
pearing in the fore quarters. Gradu-
ally the animal ceases eating and gets
very bloated. Soon it falls over and
begins to roll around on the ground,
which it continues until it is dead.

The disease is very infectious, though
many animals appear to become sick
without having been exposed to the
infection. The pastures where they
have been kept while in the last stages
are naturally infected with the germs,
and it is necessary to burn the bodies,
and as much as possible, of the grasses,
to guard against other animals taking
the "black leg."

A common antidote is to drop a
little turpentine between the joints,
but the remedy which the local depart-
ment of agriculture is recommending
to all who apply is the following mix-
ture:

Hypo sulphate of soda—1 part.
Chloride of potash—1 part.
Salt—3 parts.

MCKINLEY OF IRISH DESCENT

The ancestors of the late president
McKinley were of the hamlet of Der-
wack, County Antrim, Ireland. The
great grand father of the president
emigrated to the United States.
Wm. McKinley, a cousin of the grand
father of the president, was shot as a
rebel in '98. Strange to say his cap-
ture was effected by a Captain Hanna.

OUT FROM DAWSON.

Mr. Carling, of Montreal, who re-
cently came out from Dawson, gave
the following to the reporter:

We came out on crowded steamers
and hundreds were then preparing to
leave before navigation closed. The
Canadian service is a splendid one
and is receiving a large share of the
trade. American steamboat men are
compelled to work hard now to keep
up with the Canadian lines. In former
times they had everything their own
way.

Mr. Carling says that Dawson is
rather quiet at present. The merchants
are not making big profits, as the com-
petition is as keen as it is in Eastern
Canada.

There will, Mr. Carling says, be a
radical change in the manner and
method of mining in the Klondike.
When the Klondike was first dis-
covered, winter mining by thawing
out the ground was the principal
method of working, and the dumps
were washed out in the spring.

Lately, and especially during the
last year, Dawson has become what
is known as a summer camp. This
means that most of the work has been
done in the summer, and washing has
been going on at the same time as the
actual removing of the dirt.

This will be changed back again,
however. Northerners say that while
the output this year will be large in
comparison to that of last season, it is
in some places disappointing, and work
is being done with great difficulties. For
that reason it is intended by the ma-
jority of the larger mine owners to
change their method back to that of
mining in the winter, and to that end
arrangements are being made.

Lately, in the creeks which were af-
fected by drought during the summer
part of the summer, there has been
plenty of water, and dumps about
which some doubt was at first pre-
sented, have given very satisfactory
clean-ups.

Tot Causes Night Alarm

"One night my brother's baby was
taken with Croup," writes Mrs. J. C.
Snider, of Crittendon, Ky. "It seemed
it would strangle before we could get a
doctor, so we gave it Dr. King's New
Discovery, which gave quick relief and
permanently cured it. We always keep
it in the house to protect our children
from Croup and Whooping Cough. It
cured me of a chronic bronchial trou-
ble that no other remedy would re-
lieve." Infants for Coughs, Colds,
Croup and Lung Troubles. 50c and
\$1.00 Trial bottles free at Macdonald's
drug store.

LOCAL.

—Mrs. V. J. Walker returned from Calgary Wednesday.

—Thos. Hourston and niece returned from a visit to Calgary on Wednesday's train.

—W. Wilkin, of Wilkin & Richards, Strathcona, has sold out his interest in the business to Thos. Richards.

—Mr. McLaggan, of Ellerslie, was brought to the public hospital yesterday suffering from typhoid fever.

—The crew of the H. B. Co. steamer Graham arrived at the Athabasca Landing Saturday, being about the last northern passengers to arrive this fall.

—A fine sample of flax has been placed in the Bulletin window by Jas. McDermid, of Poplar lake. The flax is well grown, but was not quite ripe before the frost.

—Arrangements for the hospital bill will be made at a meeting of the Woman's Hospital Aid society to be held in the council chamber Monday afternoon at three.

—Duncan McGary, a son of Dr. McKay, of Edmonton, is on his way out from Fort Simpson and is expected to reach Edmonton to-day. Another son arrives from Dawson to-night.

—Calgary Herald, Oct. 2.—Chas. Sutter, immigration agent at Edmonton, arrived from the north last night with a gang of Galicians bound for Lettbridge where they will work in the mines.

—Fincher Creek Echo, Hon. F. W. G. Haultain spent Friday in town, leaving for the east on Saturday. He denied any knowledge of the rumor in the Macleod Gazette that he was to replace James Dugas in the Yukon.

—Free Press: While on the way between government house and the senate chamber at Ottawa on Monday night last, Lady Minto had the misfortune to lose a bracelet valued at \$800. How the jewelry was lost is not known.

—A number of Germans, thirty-three souls in all, arrived last night from North Dakota. They are Mrs. M. Bolter, wife, mother, and five children; Elton Hall, wife and five children; Herman, Sigaty, wife and six children; Michael Lehman, wife and eight children.

—T. H. Stapley has purchased a new 20 horse power tractor engine and thrasher and commences threshing Monday on the farm of A. McVay, Horse Hills.

—The Winnipeg Telegram publishes a Toronto despatch which says that 500,000 bushels of Canadian oats have recently been purchased there for shipment to South Africa. This is good news for Alberta farmers, as it shows that there is an export market for oats this season. So long as the rate is the same as to Fort William, Toronto is almost as near as Vancouver.

—Mr. Muir & Co's grain circular of Sept. 21st, says: "The outlook throughout Manitoba and the Territories has been more or less wet during the last ten days, and in consequence stacking and threshing is not progressing very well. Export value of 2 white oats at Edmonton to-day, is 14 cents. Cans inspected at Winnipeg during the last two weeks averaged about 200 daily. Scarcely any grain delivering yet west of Moscow."

—A telegram received yesterday from scrip commissioner, J. A. J. McKenna, at Battleford, announces that he is two weeks and a half late on his dates of payment but does not expect to lose any more time. The dates at which the commissions were billed to hold sittings at Alberta points were: Lettbridge, Sept. 30th; Calgary, 9th; Oct.; Edmonton, 12th Oct.; Being behind time the new dates on which he will probably reach these points are: Lettbridge, Oct. 21st; Calgary, Oct. 21st, and Edmonton, 'at November.

—Jas. Nicholls has rented the threshing outfit of the Union Threshing Co., New Lunnun, and commences work Monday on the farm of Jas. McDermid, Poplar lake. A sleeping car on wheels is being built by Mr. Nicholls in town for the accommodation of his gang. The car is perfectly weather proof and accommodates 12 men. It will accompany the thrasher being hauled either by the traction engine or by a team. The van is 81-2 feet wide and 16 in length, similar to the ones commonly used across the line."

—The plot of land purchased by Royt, Ochener at the south end of the bridge and across which the railway would have to be constructed was bought back a few days ago by Donald Ross, the original owner of the property. Mr. Ochener was holding the land at a price which would have forced the railway company to take expropriation proceedings and in order to settle all difficulties and smooth the way for construction Mr. Ross purchased the property, the price paid being a small increase on the amount for which he sold it.

—The board of trade have heard from 35 school districts to which they sent asking for information as to the amount of land under cultivation. The returns so far received show 8,680 acres of wheat; 30,231 acres of oats and 2,900 acres of barley. There are seventy school districts yet to hear from. The board is particularly anxious to get the balance of the returns in in order to get the complete information of their statistics. As the object is entirely to advance the country and develop the grain market, the board hopes that it will receive all possible assistance from those whose interests will be particularly advanced.

—W. A. Dykeman reached town from Lesser Slave lake on Sunday, having come in by the Swan Hills trail with a bunch of twenty head of cattle which he brings down to sell. He was accompanied by Harry Garbett and some half-breed drivers. Speaking of the condition of the trail, he said, "whether or not it was encumbered with fallen timber, Mr. Dykeman said he never saw it in better shape. There was some fallen timber which might trouble a wagon to get through but the road was quite passable. They made the trip in 25 days; Garbett started back Wednesday, returning over the trail to the lake. His partner, W. P. Taylor had left for the mountains west of Lesser Slave lake with his winter's supplies and Garbett intended over-taking him.

—A telegram from Judge Scott, received this morning, postponed the sittings of the supreme court until the 29th instast.

—Mr. and Mrs. Jas McDonald leave for the south Tuesday. Mrs. McDonald goes east for the winter. Mr. McDonald accompanying her as far as Calgary.

—F. Mayerhofer, of the Edmonton dye works, is adding a new 12 h. steam boiler to his plant. The boiler arrives this week and is now being installed.

—S. B. McNamara, telegraph operator here, has been transferred to Moose Jaw. He leaves next week. Mr. McNamara's departure will be sincerely regretted by the business public, to whom his obliging disposition and strict attention to duty he has given the greatest satisfaction.

—J. McCarley has six teams at work on his railway contract on this side of the river. At present he is working in a cut at the western end of the station grounds, having ceased on the cut near the bridge, awaiting the arrival of timber for the culvert.

—The gold dredges Minto and Alberta have been laid up for the season, undergoing repairs. The Minto will next season be fitted with new machinery throughout. The other is working up the river. J. Kingham, engineer of the Minto, leaves next week from Dawson to-night.

—A. McNeil returned last night from a two weeks hunting trip at Beaver lake. He reports the road as being white with snow, four varieties and numerous ducks, chicken and partridges.

—At a meeting of the directors of the reading room held last night it was decided to issue a prospectus of the library which will be started as soon as possible. The concert to be held in aid of the institution was postponed owing to the illness of Miss Reid. The finances were reported in a satisfactory condition but more help is required to equip the room properly.

WEATHER AND HARVEST.

The weather has been magnificent since Saturday last, and as a consequence the crop conditions have improved more rapidly than was expected. Cutting of the remaining uncut grain has commenced generally and is now in brisk progress. It is very flat but the farmers are taking it very well by cutting one way. Last year a plague of mice did a great deal of damage while the grain was lying flat before being cut. This year there are no reports of mice, and in any case the grain is lying only such a short time that it cannot suffer much damage. The ground has dried out much more quickly than was expected. The loss from shelling in cutting and handling will not be very great. In many settlements all cutting was completed before the snow, and forty acres of down grain is about the most that any single farmer has to cut. If the weather holds all cutting will be completed next week and the principal loss from the snow storm will be the delay in harvesting and the consequent prevention of full ripening.

Threshing is commencing. John Kennedy, of Poplar lake, commenced on Wednesday. His grain is in good shape and he is threshing out well. H. Bell, of the Sturgeon, has also threshed part of his crop this week. Geo. Lacerte, of Stony Plain, was in the process of threshing yesterday. No doubt many other threshers are at work.

Roads are again becoming good. There have been no severe frosts yet.

MANITOBA WEATHER.

Free Press, Sept. 30.—The heavy rain which set in yesterday will prove anything but reassuring to the farmers and grain men. Some of the latter take a very gloomy view of the situation. They state that three-quarters of the grain in the country is in stacks and that it is suffering great damage from the late heavy rains. Of course the grain in stacks will dry out quickly, but the wheat will have lost the color necessary to a high grade. Again, they say that even with fine weather it will be almost impossible to thresh the grain before winter with the present number of men in the country. There has been a constant exodus during the past two weeks of the Ontario men, who came up to assist in the harvest, and the number of threshing outfits will never be able to start for want of hands. The unfavorable weather is undoubtedly causing great anxiety to the farmers.

SHOOTING ACCIDENT AT RED DEER.

The Calgary Herald of Oct. 2nd, says: A young man named Stewart met with a painful gunshot wound at Red Deer on Monday night. He had his gun with him in his wagon and it exploded in some accidental manner, the charge entering his left side. He was taken to the Calgary hospital, where it was found that part of one kidney and the lower portion of the lungs had been laid bare.

"O" TOOK THE CAKE.

In the parade and inspection before His Royal Highness, the Duke of Cornwall and York, at Calgary last week the men of the squad from G. Division N. W. M. P., surpassed in efficiency of drill and horsemanship those from any other point. They were specially complimented by assistant-commissioner McIlhenny on their appearance on parade and management of horses.

The squad returned Monday, with the exception of Corporal Duff and Const. Green, transferred to the Yukon. The members of the squad were: S. M. Flinford, Sergeant; Aston, Ritchie, Corp. Fitzgerald, Troft and McIlhenny, Const. Watts, McLeod, Lowe, Galpin, Vernon, Green, Phillips and Smith.

There are 22 flour mills in Minneapolis, which grind daily 75,300 bushels of wheat, 38 elevators in Minneapolis, storage capacity, 29,000,000.

FORT SASKATCHEWAN NEWS.

The Fort Saskatchewan agricultural society had to postpone their annual exhibition, owing to the farmers being so busy with their crop that very few of them would have been able to attend.

Supt. McDonald and W. McKay, of the government veterinary service, visited town on Wednesday.

Mr. Eberzon, who was acronously reported to have had a leg amputated some time ago has been sent to the Edmonton public hospital and is progressing favorably.

On Monday, Oct. 1st, Mr. T. Lamour-eux found some strawberry plants in full bloom. I was told while in the east that Edmonton district, was too near to the Arctic Circle, to grow grapes and yet in October there is a chance of our having a second crop of strawberries.

L. Adamson leaves shortly for South Alberta, he has rented his house to Mr. Dewar.

The detachment of police who left here to attend the reception of the Duke and Duchess of York, at Calgary, returned home on Wednesday.

Orders left at Rossau's Bookstore.

\$200 IN CASH, FREE

We will give the above reward to any person who will correctly arrange the above letters to spell the names of three Canadian cities. Use each letter but once. Try it. We will positively give the money away, and you may be the fortunate person. Should there be more than 1 set of correct answers, the money will be divided equally. For instance should 5 persons send in correct answers, each will receive \$40; should 10 persons send in correct answers, each will receive \$20; twenty persons, \$10 each. We do this to introduce our firm and goods we handle as quickly as possible. SEND NO MONEY WITH YOUR ANSWER. This is a FREE contest. A post card will do. Those who have not received anything from other contests, try this one.
